

Opening of the CHEMPARK Kantina seating areas on 27th April 2020

Following the easing of the corona measures approved by the Federal Government on 20th April 2020, Bayer Gastronomie is able to lift individual restrictions in the CHEMPARK Kantinas from Monday, 27th April.

- The guest rooms will reopen from 27th April. The seating will be reduced to ensure a distance of at least 2 m between individual guests. Please help to comply with this regulation and follow the signs and instructions.
- All guests are asked to wear a nose and mouth protection until they reach the place where the purchased food is consumed.
- Only guests with a CHEMPARK ID card will be admitted at the entrances to the Kantinas in Flittard and at the Kasino in Leverkusen.
- Clear guidance is ensured for guests: Bayer Gastronomie employees will guide guests and make sure that distancing is observed.
- The currently reduced meal times will be cancelled. The advertised regular opening times apply once again. This will make it possible to broaden the choice of seats in the Kantinas.
- For the time being, there will continue to be a very limited range of dishes, without self-service elements. The number of dishes will be adjusted according to need.
- The take-away hot dishes selection will still be available in the Kantinas.
- The serving system with floor markings will continue to apply.
- Trays and cutlery will continue to be issued.
- Surfaces exposed to frequent contact, such as handrails, tables, etc. will be regularly disinfected.
- The cafés and self-service coffee stations will remain closed for the time being.
- These measures were implemented in coordination with the site management at the Berlin site on 20th April 2020, without any problems.
